Taking the lead in creating fair and equal workplaces for women

We want all women across our value chain to be able to fulfil their potential.

Advocating inclusiveness and body positivity

We want all women to feel inspired and self-confident, no matter who they are, how they look or which walks of life they have chosen.

Supporting a sustainable lifestyle

We want to empower and enable women to have a sustainable wardrobe and live a sustainable life.

Respect the planet

Taking climate action

We want to make sure that our own operations are climate neutral and that we reduce the negative climate impact in our value chain.

Having a circular business approach

We want to prolong the lifetime of our products and use resources in the smartest way possible throughout our operations.

Being a water responsible company

We want to be water efficient throughout the whole value chain, reduce the risk of water scarcity in areas connected to our operations and together with business partners provide access to water and sanitation in factories and nearby communities.

Ensure human rights

Advocating respect for human rights

We want to make sure our whole value chain is progressing within living wage and that its workplaces are safe and healthy, free from harassment and discrimination.

With our promise, we support the UN Sustainable Development Goals to which our business can make significant contributions:
